Uncompromised Check Solutions®

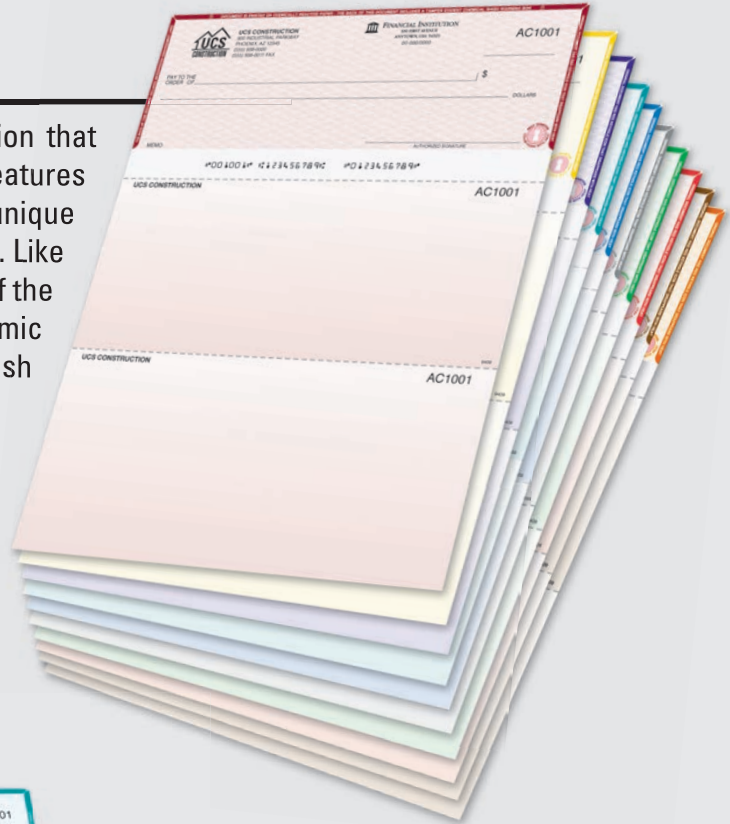

Uncompromised. It's all in the name.

Uncompromised Check Solutions provides state-of-the-art product offerings for secure, software compatible checks and forms. This catalog offers the best-selling checks and forms for a variety of accounting programs. Using Uncompromised Checks greatly reduces liability in check fraud loss. Even the lowest security level exceeds all the requirements to qualify as a high-security check.

Choose from any of our three levels, which include varying tiers of paper and printed security features. If you don't see what you need, visit uncompromisedchecks.com or send us a voided copy of your check or form. We will match it to the correct format for you.

Level 1: Uncompromised Checks

The Uncompromised level is an economical option that provides well above the minimum eight security features needed to qualify as a "high-security check." The unique check background design is available in 10 colors. Like all versions of Uncompromised Checks, the face of the document contains a heat-reactive, thermochromic icon. Additionally, the back has a chemical wash warning box.

**"High-security checks
at economical prices"**

Level 2: Uncompromised Plus Checks

Uncompromised Plus takes check security to the next level! In addition to the security features available in the Uncompromised level, Uncompromised Plus includes an invisible fluorescent logo printed in the signature area of the check. The Uncompromised Plus check background is distinct in design, difficult to duplicate and available in four colors.

**"Professional designs with
unique and unequalled
security features"**

Level 3: Uncompromised Premier Checks

Uncompromised Premier is the most robust level in our standard check offering. The Premier level includes multiple layers of check security options that are described in greater detail below. These checks are manufactured in a facility that utilizes security paper stocks, secure images, printing technologies, inks and holograms to protect its customers and employs production and building procedures that have made it a NASPO accredited printer.

Option 1: Granite/Parchment/Linen

Exclusive check backgrounds in three distinguishing textures (granite, parchment and linen) are available in a wide variety of colors. They are printed on laser compatible paper and feature toner adhesion and an artificial watermark. As with the Uncompromised Plus level, an invisible fluorescent logo appears in the signature area of the check.

Option 2: Payee Positive Pay

This check complies with the cash management systems used by most banks to help reduce incidents of check fraud. The background image disappears when scanned, allowing for clear image capture of the vital data on the check. Payee Positive Pay Checks enable the bank to review various aspects of a check presented for payment by comparing it against a supplied list of checks issued.

Option 3: 3D/Financial Secure

3D and Financial Secure Checks are printed on the finest security paper available and include a true fourdrinier watermark and toner adhesion. They each offer two choices of prismatic colors and the 3D style background includes a three-dimensional image of the word "Secure." Prismatic backgrounds present a significant challenge for counterfeiters to successfully duplicate.

Option 4: Hologram Secure

Incorporating a hologram in the design of a check is one of the most differentiating and effective deterrents to forgery. The advanced optical technologies used have two main advantages: they are instantly recognizable to the naked eye and uniquely resistant to counterfeiting.

Option 5: Ultimate Secure

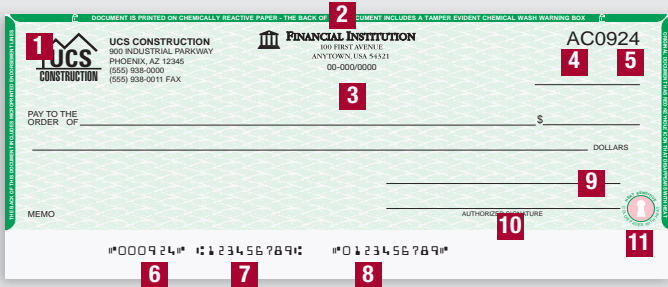

Ultimate Secure takes our standard hologram to a new level with an iconic eagle design. Added features include a prismatic and image-shifting pantograph available in four different color combinations, overt and covert fluorescent icons and a survivable image.

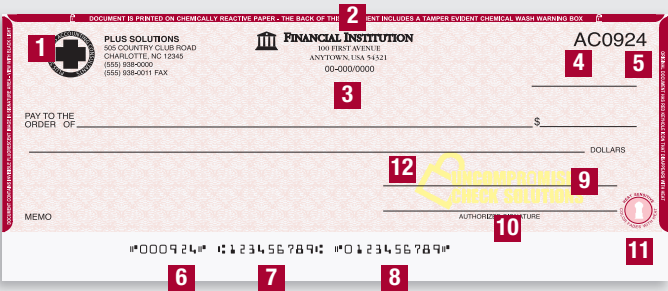

"Premier checks are the most robust in the Uncompromised product offering"

Security Features Glossary

Artificial Watermark

An artificial watermark is a subdued representation of a logo or word printed on paper. Artificial watermarks can be viewed while holding the document at a 45 degree angle. Copiers and scanners capture images at 90 degree angles and cannot read these marks.

Microprint Endorsement Lines

Endorsement signature lines on the check backer are lines that are formed by printed words so small that they appear as a solid line or pattern to the naked eye. Under magnification the words appear. This level of detail cannot be replicated by most copiers or desktop scanners.

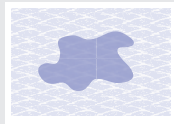

Chemical Reactive Box

Uncompromised Checks that are printed on chemically reactive paper have a chemical wash warning box on the backer. The warning box calls the attention of the check verifier to the color of the check paper. Any discoloration within the box may indicate the check has been tampered with and should stop the verifier from processing the check.

Padlock Icon

Uncompromised Check Solutions is authorized by the Check Payment Systems Association to illustrate their registered certification mark, the padlock icon. The padlock icon provides an indication to all parties accepting checks that additional security features have been incorporated in at least one or more of either the design, the production process or the materials being used to produce the check.

Chemical Reactive Paper

Paper that produces a stain or speckles when activated with ink eradicator-class chemicals, making it extremely difficult to chemically alter a document without detection.

Thermochromic Icon

An image or icon printed in thermochromic ink. Thermochromic inks react to changes in temperature. If you touch or blow on an image printed in this ink it will disappear. The image will reappear after it cools. Thermochromic ink's reaction to temperature changes cannot be replicated on a color copier or laser printer.

Diagonal Dimensional Backer

Different spacing of diagonal lines used in the design of a check backer to deter altering by cut-and-paste method.

Hologram

A hologram is a multicolored, three-dimensional image that appears in a reflective material when viewed at an angle. There are two holograms available, depending on the level of check ordered.

Invisible Embedded Fibers

Invisible embedded fibers are ultraviolet, light-sensitive fibers in the paper stock and can be seen only under black light (ultraviolet light).

Invisible Fluorescent Logo

A logo printed in an invisible fluorescent ink in a designated area on a negotiable document or check that can only be seen when viewed with a black light. Invisible fluorescent logos serve as a very useful tool to authenticate a document.

Toner Adhesion

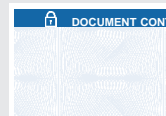

Toner adhesion or anchorage is a chemical coating that fuses the toner to the sheet, preventing the removal of toner with tape or by scraping.

True Fourdrinier Watermark

A true fourdrinier watermark is a faint design pressed into the paper while it is being manufactured. When held to the light, these watermarks are easily visible from either side of the paper. Copiers or scanners are not capable of replicating true fourdrinier watermarks.

Visible Embedded Fibers

Visible embedded fibers are fibers within the paper stock that can be seen with the naked eye.

Warning Band

Warning bands are printed messages that call attention to the security features that have been added to protect a document.

Don't see the form or check you need?

This series is ideal for new or modified software and other non-standard formats and is available at the same economical price as our Uncompromised series of forms and checks. It is the perfect option between stock and custom. You send us your high-resolution art file in PDF format, and we print it on our standard Uncompromised stock pantograph or form background.

Laser

- 8½" x 11"
- 1, 2 or 3 Pts.
- Checks have standard perfs
- Perfs on forms additional charge
- Multiple color options available

Continuous

- 9½" x 7"
- 9½" x 11"
- 1, 2, 3 or 4 Pts.
- Full-body crash imprint
- No internal perforations, screens or reverses
- Available in one color only

The top form is a check with a green background. It includes fields for 'YOUR COMPANY NAME', 'YOUR ADDRESS', 'YOUR BANK NAME', 'CHECK NO.', 'DATE', 'PAY TO THE ORDER OF', and 'ADDRESS'. It also has a section for 'DOLLARS AND CENTS' and a 'TOTAL' field.

The bottom form is a 'Packing List' with a white background. It includes fields for 'YOUR COMPANY NAME', '123 YOUR STREET NAME', 'CITY, STATE, ZIP CODE', 'Phone Number', and 'Advertising Line'. It has a 'BILL TO' field and a table with columns for 'QTY', 'DESCRIPTION', 'RATE', and 'AMOUNT'. A 'TOTAL' field is at the bottom right.

The top form is an 'INVOICE' with a white background. It includes fields for 'MT's Containers & More, Inc.', '1300 Corporate Dr', 'Kingston, OH 45644', '(800) 157-6300', 'DATE', and 'INVOICE #'. It has a 'BILL TO' field and a table with columns for 'DESCRIPTION' and 'AMOUNT'.

The bottom form is a detailed 'INVOICE' with a white background. It includes fields for 'Nancy's Cat Tastrophe', '123 Main Street', 'Columbus, OH 43201', 'PHONE: 614-555-1234', 'INVOICE DATE', 'INVOICE NO.', and 'CUSTOMER NO.'. It has 'BILL TO' and 'SHIPPED TO' fields. The table has columns for 'QTY', 'DESCRIPTION', 'UNIT', 'UNITS', 'QUANTITY', 'UNIT PRICE', and 'EXTENDED PRICE'. A 'TOTAL' field is at the bottom right.

See page 27 for details about customizing your form with Color OptionsSM. Any additional composition is subject to charges at plant discretion. Complete color-separated artwork must be provided.

HealthCare Forms and Envelopes

Health Insurance Claim Forms

The UB-04 (CMS-1450) claim form is used for a variety of Medicare and Medicaid claims. It is designed to accommodate the National Provider Identifier (NPI) number.

The CMS-1500 (02/12) is approved by the Centers for Medicare and Medicaid Services (CMS) to meet all claim form requirements. It contains a space for reporting the National Provider Identifier (NPI) number.

Depending on the number of CMS-1500 claim forms you mail, you can choose either a #10 right window envelope, #9 right window envelope or 12½" x 9" large claim forms envelope. The fold marks on the CMS-1500 are designed to work with ENV-9969.

Additional Forms and Checks

Purchase Orders, General Purpose Forms, Statements, Invoices, Checks or Blank Forms

We have many other forms and checks available. You can view them on uncompromisedchecks.com to find the one that you need, or send us an example and we'll match it for you. If it is not a standard form or check, we'll work with you through our Advanced SeriesSM to print exactly what you need.

Add Forms Identifiers at NO extra charge to any General Purpose Form.

Statement	Purchase Order	Sales Order
Packing List	Overdue Account	Thank You
Debit Memo	Agreement	Past Due
Proposal	Reminder	Invoice
Work Order	Quotation	Memo
Estimate	Receipt	Bulletin
Urgent	Credit Memo	Change Notice
Final Notice	Requisition	Job Invoice

Need A LOGO?

Browse our selection of Stock Logos online at uncompromisedchecks.com. To use your existing logo, send us a high-resolution file, and we'll add it to your form or check.

Ordering Information

Copy Instructions

The high-resolution art submitted must be at least 300dpi and the exact size to be printed. Fine lines, screens and heavy solids do not reproduce well. All art is subject to factory approval. Please submit a sample or layout indicating copy position.

Check Instructions

New check orders must be accompanied by a voided check sample or a MICR specification sheet. Deposit tickets are not accepted for check MICR specifications.

Numbering

Checks feature consecutive numbering at no charge and are guaranteed to have no missing numbers. MICR numbering is printed in black magnetic ink. Forms numbering is available at an additional charge. Ask for details.

Numbering on laser checks and forms is black ink only. Standard ink color for numbering on continuous checks and forms is black. Red ink is available on request. Charges may apply.

Special Options—No Charge

- Customer logo, no composition. Must be a high-resolution art file in PDF format.
- Proof—new order only
- Extra signature line
- Name over signature line

Special Options—Available with Upcharge

Check with plant for art requirements and charges.

- Phantom—customer art or stock logo—new order only
- Heavy composition
- Additional proofs—customer changes or proofs on repeats
- Each new or additional perforation

Available Typestyles

Please specify typestyle by ID code. If no typestyle is specified, we will use TB2, Helvetica Bold for line 1. All additional lines will be TB1, Helvetica, unless noted otherwise.

Color OptionsSM

Create a customized look for your laser or continuous forms with one of the options listed below. Additional charges apply, ask for details.

Option 1:

You can change the background screen color on your laser forms. Choose one of the 16 standard ink colors shown. Color coordinate your files by choosing a different color for each of your laser forms – invoice, statement, purchase order or general purpose.

Option 2:

If you use continuous forms and would like to add some color, consider having your company information printed in one of our 16 standard ink colors.

Option 3:

Create a custom look by choosing a special ink or match an ink on an existing form or letterhead.

Standard Ink Colors:

- PMS-300 Blue
- PMS-464 Brown
- PMS-471 Brown
- PMS-201 Burgundy
- PMS-221 Burgundy
- PMS-423 Gray
- PMS-432 Gray
- PMS-348 Green
- PMS-355 Green
- PMS-151 Orange
- PMS-Purple
- PMS-185 Red
- PMS-Reflex Blue
- PMS-321 Teal
- PMS-Violet
- PMS-123 Yellow

Satisfaction Guaranteed!

Every product is backed by our 100% satisfaction guarantee. If we don't do it right, we'll make it right.
